EXPERIENCE

Netcetera, Skopje— *Software Engineer*

November 2017 - PRESENT

Worked on the overall development and extensions of the [Wüest Dimensions](#) project. Participated in the daily, sprint retrospective and planning meetings, while also demonstrating the finished work to the customer. With team effort we also won the first place in the 'Top 10 Digital Real Estate' competition for our work on the [Wüest Insights](#) analysis tool which is part of the overall Dimensions project. In the past year, I also worked on helping the new team members their onboarding procedure to the team, and giving them mentorship with their daily development tasks and leading numerous technical analysis meetings.

Besides the work on the Dimensions project, also participated in successfully promoting the Netcetera culture through various events such as [Job fair](#) and [Javaskop conference](#), while also being an active member of the [JUG MK](#).

Netcetera, Ohrid — *Software Engineering Intern*

July 2017 - September 2017

Worked on the development and extensions of the Web Service API of the [Wüest Dimensions](#) project. Participated in the daily, sprint retrospective and planning meetings, while also demonstrating the finished work to the customer

EDUCATION

[FCSE](#), Skopje — *BSc. Computer Science and Engineering*

September 2014 - October 2018

Finished my college degree at the Faculty of Computer Science and Engineering with a special focus on scalable web application development and cloud systems.

St. Clement of Ohrid, Ohrid — *High School*

September 2010 - June 2014

Finished my high school degree with focus on natural sciences.
